

Love potion

Preparation time : 4 hours

Utensils : A Cauldron
A Golden spoon
A Silver flask

Ingredients :

3 Gills of red wine	For a touch of dizziness
2 Phoenix tears	For immortality of love
2 Mandrake roots 1 male, 1 female,	for fertility
5 petals of red roses	For passion
1 Unicorn horn	For the strength of your love
A drop of honey	For more sweetness

Preparation :

Before you start, make sure it's on a Venus Day.

Pour the wine into the cauldron and start boiling it.

Add the phoenix tears and let it simmer for one hour until the preparation becomes translucent.

Grind the Unicorn horn into a fine powder, and sprinkle it slowly over the preparation.

If you see pink smoke, it's a good sign.

If not give it to the pigs, and start again !

Take the petals of red roses and let them brew for half an hour. Don't forget you must pick them up on a full moon !

Strain the petals. Take the Mandrake roots. (Be careful when you unearth them, they shout very loudly!)

Cut their heads off, and throw their bodies into the mixture. Stir for one hour until it becomes red again.

Add the Honey. Taste the potion (just a drop, or you will fall in love with your cauldron !). If it's not sweet enough, you can add 2 more drops of honey.

Let it rest for 1 hour, and strain the potion.

Pour the potion into the silver flask, and shake.

Be careful: make sure you give the potion to the right person, because the effect lasts forever !
